

What Now?

Which are three aspects of the outward side of leadership do you need to work on- people skills, persuasion, or vision casting? What specific steps can you take to grow in that area?

Write a sample vision statement for the ministry in which you are currently involved. Make sure that it is as SMART as possible.

The outward side of leadership that I need work in is with vision casting. I believe I have seen clearly the vision for a fitness ministry in the church. Where I have trouble is sharing the vision with others. I am unsure of how to share it and when to share it. In chapter 25 it says the vision should be communicated at every opportunity. I think what holds me back from sharing the vision more often is, I feel like people will be like, oh here he goes again talking about his vision. I now see that by sharing the vision more often it will give it purpose, attract followers or leaders. It will give it a sense of direction and inspire and encourage others. Also to get people excited and want them to feel apart of the vision.

Humble Beast Fitness Ministry Vision Statement

To transform lives everyday through faith and fitness. To glorify God with our bodies and spirit, trained and equipped to be a witness for Jesus Christ.
