

Alex Ramirez

Principle number one is "Love," love conquers all people are going through so much in their lives and when they come to a place where someone is just there to greet and love them, they feel loved. The great thing about our church is that they don't just get a warm welcome one time, they get about five greetings. When we love like that we're giving them Heaven. We're showing them the love of God. When I first came to "The Way World Outreach" they treated me like family and I never left.

The six love guarantees are Completeness, power, fullness, more, gain, and encounters with God. The two that I have experienced are Gain and Encounters with God. Since I have been saved I have had about three raises at my job. I also tithe every week and what the Lord gives in return is more than I could imagine. I also have experienced God encounters at my church through Praise and worship, sermon messages and life experiences. That's why it is so important to stay connected to your church. Some days your flesh might be telling you to do something that you know God does not approve of and you listen to that still small voice and come to church, the Holy Spirit speaks to you and saves you from doing that thing you were about to go do. That's when men and women start to change when they just show up and no one knows the fight that they went through just to get to church.
