

I grew up in a very dysfunctional household. And it is only now in my adulthood and motherhood, with the tremendous help of this church and recommitting my life to God, that I'm able to recognize the generational curses that have infected my family. I believe that there have been doors open to all 5 of these spirits that we learned about today in myself and in my family, and in the family of the father of my first two children. In both sides of my children's family, there has been heavy struggle and suffering from pridefulness, anger, substance abuse, violence, insecurity, promiscuity, unforgiveness, even being Lukewarm in our faith! I've struggled with soul ties, intentional sin, idolizing secular music and other arts, and even thought to myself that I could believe in God and also participate in things that I didn't realize were witchcraft, simultaneously. I believed that I could pray to God and worship crystals at the same time. That I needed both prayer and psychedelic experiences side by side in order to "heal" only to realize later on I was only spiraling more downward and continuing the cycle of passing these beliefs down to my children. There were many times I saw myself and others around me pretend to be blind from our own bondage. I refuse to allow that in mine and my family's lives any longer and will not continue in these cycles. The generation curses stop with me, in the name of Jesus. I know and understand now. And in the name of Jesus I close all doors open to the enemy's plans, and open doors only to God's plan.
