

Principle 1 says that love creates an atmosphere of guaranteed growth. Our church, The Way World Outreach, is a church built on that very foundation. Love causes abundance and overflow. An important thing I've learned since being a part of this church is that "people don't care how much you know until they know how much you care". Love is the highest goal of our church and that is why we've continued to grow and succeed, because a church without love is a church without power. I've learned that when our love is conquered, we are conquered. Love is the way. Love is our weapon.

The 6 love guarantees are completeness, power, "more" as in infinitely more than we can ever ask for or think, gain, and encounters with God. I think the two that I identify with the most are gain and encountering with God. I got saved at a very young age. But from the age of about 17 until last year, (im now 26), I strayed away from God. I was lukewarm. I was back and fourth. Since coming and being a part of this church, my heart has healed more than it ever has in my life. I'm building a stronger relationship with God. I'm making my home a church and teaching my children about God. I still have struggles every day, but I accept now more than ever to count it all joy and give it all to God.
