Evangelism 105 Lesson 7

A Bridge

The way I would bridge people from the outreach event to the grand opening would be to meet everyone I could and take down their information. I would personally invite each person I met to the grand opening as well as have a team to make follow up calls and remind them later in the week. I would also have flyers I could pass out as well as candy reminders for the children. Once they come to the grand opening I could connect with them again as well as introduce them to other people as well as introduce them to the different ministries we have. First, I would tell them about the discipleship classes and small groups we have and ask if they would be interested in getting involved with our people or if they would like to grow more with the Lord by taking one of our discipleship classes. Once they have done that we can figure out their gifts and bridge them to ministry.
