Evangelism 105 HW 9

Evangelism lesson 9

Administration within the church is extremely important. One could say it is extremely crucial to a church, especially a church's grand opening. The administrator makes sure that all the major church roles are filled in order for a smooth operation. They organize the people, responsibilities, and recruit leaders. They also create a follow up and care plan for after the launch. A follow up and care plan must be created and people to care for and follow up must be put into place in order for it to be successful. After recruiting volunteers, a script must be made for care calls to take place.
