

Theology 105 * Lesson #6

HW: What demons are and are not

Nicole Bermudez 10/14/20

What are demons?

They are fallen angels. They have personalities, they are evil, unclean, and named according to their manifestation. They cause oppression, and operate in different levels of demonic control; depression, oppression, obsession, and possession. They cannot stand against the Kingdom of God! They tremble and flee at the mighty name of Jesus!!! They are on assignment to harass, torment, oppress, and attack. But, thank You, Jesus, that God has given us the authority over the enemy, and we find freedom by operating in the authority that God has given us over the enemy. We have freedom through the Blood of Jesus, and the Name of Jesus!!! Thank You, Jesus!! Whom the Son has set free is free indeed!!!
