

**Leadership 105 \* Lesson #8**

**HW: What now? PG 256**

**Nicole Bermudez 10/30/20**

Sheep need a shepherd to lead them and feed them. Sheep cannot defend themselves and they cannot outrun an attacker. Sheep are very gentle and passive, and they have no will to fight back when attacked. Sheep need a shepherd to guard them and to protect them. To shepherd is to tend, feed, nourish, lead, guide, and to guard a flock. A good shepherd knows their sheep, and a good shepherd instructs their flock. It is essential that we create a system of shepherding. We must develop several layers of shepherding leaders. We must begin setting the PACE which is prayer, availability, contact, and leading by example. I will continue to encourage those that God has put into my life to lead and help, and I will help and encourage them to do the same with other people.
